- + Do you feel like you are paying more than you should for transportation and logistics services?
- + Does your business ship or receive pallet-size or larger “freight” shipments (i.e., less-than-truckload or full truckload)?
- + Is transportation and logistics a major expense item for your business?
- + Are you managing multiple carrier and/or 3PL relationships with limited resources?
- + Do you import or export freight shipments or would you like to but don’t have the in-house expertise to do so?

A “yes” answer to any or all of these questions would indicate a possible opportunity to help save you time, money, grow your business and reallocate your personnel to areas they can add greater value to your operation.
