

COMMONWEALTH OF PENNSYLVANIA
OFFICE OF THE GOVERNOR

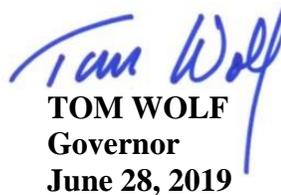

GREETINGS:

It is my honor to join with the commonwealth's logistics professionals, researchers, and advocates to support June 28, 2019, as National Logistics Day.

The logistics industry plays a critical role in being an economic driver of the commonwealth's growth and prosperity. Transportation, logistics, and supply chain solutions enhance the lives of those in the commonwealth and provide employment, augment education, and promote economic development. The commonwealth is home to many businesses that provide logistics services such as packaging, warehousing, and shipping. The people in this industry connect us with the world and offer the mobility we need to flourish. I commend all those that continue to inspire and promote growth through advancements in logistical practices throughout the commonwealth.

As Governor, and on behalf of all the citizens of the Commonwealth of Pennsylvania, I am pleased to offer my unwavering support for National Logistics Day. Please accept my best wishes for continued success in your mission.

TOM WOLF
Governor
June 28, 2019
