

Global Trade Compliance Introduction

August 1, 2019

Dear Logistics Professional:

My name is Adam Mook and I am the Director of Global Trade Compliance at Logistics Plus Inc. If you are unfamiliar with Logistics Plus, we are a leading worldwide provider of transportation, warehousing, fulfillment, global logistics, business intelligence, technology, and supply chain solutions. Erie, Pennsylvania is home to our global headquarters, with other office locations throughout the U.S. and around the world. For a complete overview of Logistics Plus, please visit our website:

www.Logisticsplus.net

Global Trade Compliance continues to be an integral part of our customers' import/export business activities. In turn, the services that Logistics Plus offers related to international trade compliance have become a large segment of our service offering portfolio. Our Global Trade Compliance division consists of 12 team members, 5 of which are U.S. Licensed Customs Brokers.

A lot has happened in the world of global trade in just this past year. July 6th is the one year anniversary of the Section 301 China Tariffs. U.S. Customs and Border Protection (CBP) is inspecting more shipping containers at U.S. ports of entry and issuing more CF28/CF29 requests to importers than ever before. Correct HTS code classification is being heavily scrutinized among Customs Authorities in countries worldwide. On the export side, U.S. government agencies with jurisdiction over exports continue to enforce the law and administer penalties for illegal export activities every day.

Please take a moment to review the following information regarding our **Harmonized System Commodity Classification** services. Please feel free to share this information with your colleagues and business partners. If your organization is interested in learning more about all of our Global Trade Compliance solutions, you may contact me directly at any time. My team and I look forward to working with your company in an effort to ensure international trade compliance within your organization.

Sincerely,

Adam Mook

We're here to help you succeed!

Harmonized System Classification

ARE YOUR HTS CODES CORRECT FOR YOUR MERCHANDISE?

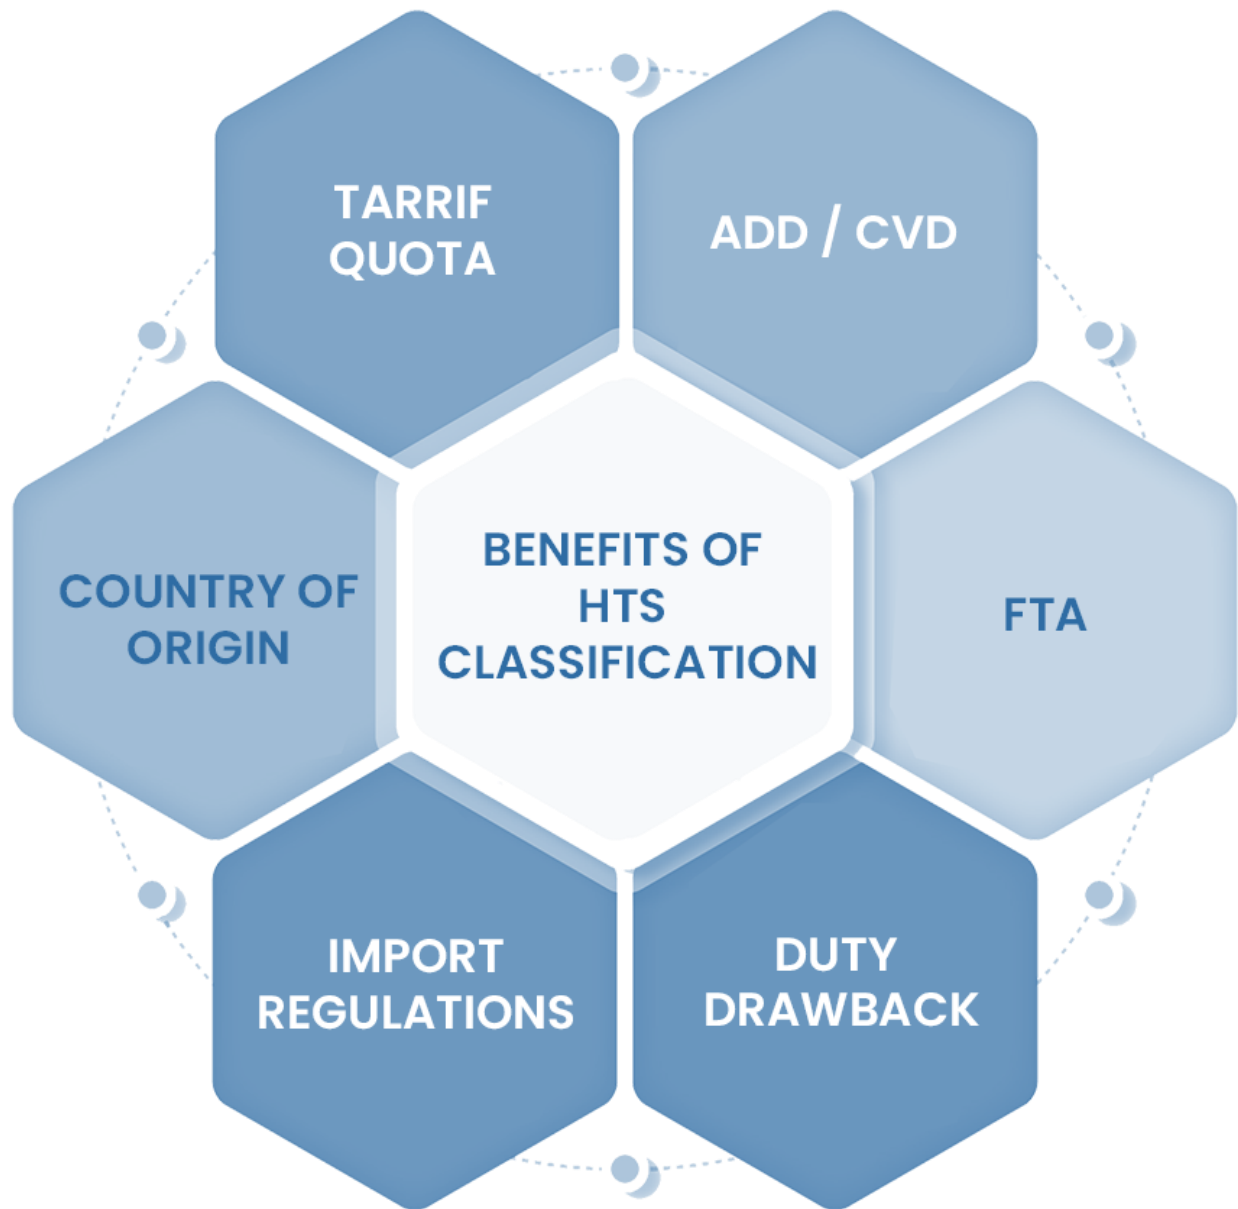

HTS codes must be correctly assigned for imported products. Using the wrong HTS code can result in fines and penalties imposed by CBP.

Logistics Plus has a staff of Licensed Customs Brokers that can help classify correct HTS for your products. We can classify your products lists from scratch, or provide a second set of eyes on your current HTS classifications. No classification list is too big or too small!

Contact Adam Mook today for details: (814) 464-1722 or adam.mook@logisticsplus.net

Harmonized System Classification

We're here to help you succeed!

Harmonized System Classification

Service Offered: HTS Code & Schedule B Number Classification

Why is this Important?: Harmonized System Classification essentially is the basis and the foundation for your entire import/export compliance program. HTS classifications determine:

- Admissibility into Customs Territory
- Duties Owed
- Quotas
- Content Requirements
- Special Trade Program Eligibility
- Anti-Dumping Duty / Countervailing Duty
- Product Based Import Sanctions
- Can also trigger other Government Agency Requirements

How Can We Help?: Whether your company has 5 unique products or 50,000 unique products, Logistics Plus team of Licensed Customs Brokers can properly classify your HTS Codes & Schedule B Numbers. All we need is a listing of all SKUs to be classified and access to your product literature and technical specifications. We then classify each SKU and provide the classifications back to you either electronically via Excel spreadsheet and/or make them available to you via our online interface, www.etntplus.net.

How Much Does This Service Cost?: We charge per SKU and provide volume discounts. The more products that you would like for us to classify, the less your per SKU price.

What is the First Step?: Contact Adam Mook, Logistics Plus Compliance Department Manager, at adam.mook@logisticsplus.net or 814-464-1722. Following a discussion of your project needs and work scope, Adam will prepare a formal proposal equipped with pricing for your team's review.

Across the country to around the world, we manage logistics from start until finish!
