

Global Trade Compliance Introduction

August 1, 2019

Dear Logistics Professional:

My name is Adam Mook and I am the Director of Global Trade Compliance at Logistics Plus Inc. If you are unfamiliar with Logistics Plus, we are a leading worldwide provider of transportation, warehousing, fulfillment, global logistics, business intelligence, technology, and supply chain solutions. Erie, Pennsylvania is home to our global headquarters, with other office locations throughout the U.S. and around the world. For a complete overview of Logistics Plus, please visit our website: www.Logisticsplus.net

Global Trade Compliance continues to be an integral part of our customers' import/export business activities. In turn, the services that Logistics Plus offers related to international trade compliance have become a large segment of our service offering portfolio. Our Global Trade Compliance division consists of 12 team members, 5 of which are U.S. Licensed Customs Brokers.

A lot has happened in the world of global trade in just this past year. July 6th is the one year anniversary of the Section 301 China Tariffs. U.S. Customs and Border Protection (CBP) is inspecting more shipping containers at U.S. ports of entry and issuing more CF28/CF29 requests to importers than ever before. Correct HTS code classification is being heavily scrutinized among Customs Authorities in countries worldwide. On the export side, U.S. government agencies with jurisdiction over exports continue to enforce the law and administer penalties for illegal export activities every day.

Please take a moment to review the following information regarding our **Free Trade Agreement Compliance** services. Please feel free to share this information with your colleagues and business partners. If your organization is interested in learning more about all of our Global Trade Compliance solutions, you may contact me directly at any time. My team and I look forward to working with your company in an effort to ensure international trade compliance within your organization.

Sincerely,

Adam Mook

Free Trade Agreement Compliance

Service Offered: NAFTA & Free Trade Agreement Management Solutions

Why is this Important?: If you are issuing certificates or statements of origin for NAFTA or other FTAs to your customers, whether domestically or internationally, you are legally required to ensure your certificates and statements are true and accurate. As the issuer of the certificate or statement, you must consult the respective FTA rules of origin to determine whether or not your products qualify for preferential treatment in order to avoid penalty imposed by Customs Authorities. Legal determination of FTA preferential treatment for sellable goods is heavily reliant upon information obtained from component suppliers, such as HTS and country of origin data.

How Can We Help?: Our NAFTA & FTA Trade Management Solutions can save your company time and significant effort by outsourcing the burdensome tasks of data solicitation from your suppliers, BOM review, and FTA rules or origin analysis in order to determine finished product preferential treatment eligibility. Whether your company has a few products to review for NAFTA eligibility or several thousand products to review for all 20 U.S. based FTAs eligibility, Logistics Plus can manage the process from A to Z. Our Trade Management Solutions package includes soliciting suppliers for product information, streamlining the response process, BOM review, respective FTA rule of origin analysis and eventual certificates of origin generation for eligible products..

How Much Does This Service Cost?: Pricing is dependent based on the volume of products and number of FTAs to qualify each product for. An hourly rate for low volume requests or annual contract rate for high volume requests are options that we offer for NAFTA and FTA Trade Management Solutions.

What is the First Step?: Contact Adam Mook, Logistics Plus Compliance Department Manager, at adam.mook@logisticsplus.net or 814-464-1722. Following a discussion of your project needs and work scope, Adam will prepare a formal proposal equipped with pricing for your team's review.

Across the country to around the world, we manage logistics from start until finish!
