

Global Trade Compliance Introduction

August 1, 2019

Dear Logistics Professional:

My name is Adam Mook and I am the Director of Global Trade Compliance at Logistics Plus Inc. If you are unfamiliar with Logistics Plus, we are a leading worldwide provider of transportation, warehousing, fulfillment, global logistics, business intelligence, technology, and supply chain solutions. Erie, Pennsylvania is home to our global headquarters, with other office locations throughout the U.S. and around the world. For a complete overview of Logistics Plus, please visit our website:

www.Logisticsplus.net

Global Trade Compliance continues to be an integral part of our customers' import/export business activities. In turn, the services that Logistics Plus offers related to international trade compliance have become a large segment of our service offering portfolio. Our Global Trade Compliance division consists of 12 team members, 5 of which are U.S. Licensed Customs Brokers.

A lot has happened in the world of global trade in just this past year. July 6th is the one year anniversary of the Section 301 China Tariffs. U.S. Customs and Border Protection (CBP) is inspecting more shipping containers at U.S. ports of entry and issuing more CF28/CF29 requests to importers than ever before. Correct HTS code classification is being heavily scrutinized among Customs Authorities in countries worldwide. On the export side, U.S. government agencies with jurisdiction over exports continue to enforce the law and administer penalties for illegal export activities every day.

Please take a moment to review the following information regarding our **U.S. Customs Brokerage** services. Please feel free to share this information with your colleagues and business partners. If your organization is interested in learning more about all of our Global Trade Compliance solutions, you may contact me directly at any time. My team and I look forward to working with your company in an effort to ensure international trade compliance within your organization.

Sincerely,

Adam Mook

Customs Broker Solutions

We're here to help you succeed!

Customs Broker Solutions

Service Offered: Customs Brokerage for Imports into the U.S.

Why is this Important?: If you are importing products into the United States, your company will require the assistance of a Licensed Customs Broker (LCB). The broker works with U.S. Customs and Border Protection and other partnering governing agencies to properly have your products clear customs and enter the territory of the United States. We currently live in a world where import regulations and tariff rates are seemingly changing on a daily basis. Logistics Plus Customs Broker Solutions stays current on the myriad of changes and walk our customers through the process of importing.

How Can We Help?: Logistics Plus Customs Broker Solutions can help you reduce that stress by making sure all rules and regulations are followed as we move your freight across the border. Our licensed brokers understand tariff schedules and government agencies. We save time and reduce delays by interfacing electronically with customs and offering remote location filings (RLF) for any port. Logistics Plus Customs Broker Solutions can transmit electronic entry data to all ports within the United States using its approved RLF status. Customers who work with us will benefit from consistent, uniform entry processing, expedited clearance times and overall reduction in costs – no matter where they are located.

How Much Does This Service Cost?: Our Customs Brokerage pricing is dependent based on the volume of products imported annually. Contact our Customs Brokerage team directly for a rate quote.

What is the First Step?: Contact Gretchen Blough, Customs Brokerage Manager, at gretchen.blough@logisticsplus.net or 814-461-7630. Following a discussion of your import needs, Gretchen will supply you with quotes for import entry fees, continuous or single entry bonds costs, duties and taxes.

Across the country to around the world, we manage logistics from start until finish!
