COVERING YOUR SUPPLY CHAIN

We are **LARGE** and **COMPREHENSIVE** enough to satisfy any link in your North American or Global supply chain ...

But we are still **FLAT**, **NIMBLE** and **RESPONSIVE** to your specific logistics challenges.

YOUR EXTENDED **LOGISTICS** DEPARTMENT

- 🌐 As a part of your team, we look up and down your supply chain, identify the weakest links, and repair them.
- 🌐 With our 4PL supply chain solutions, we can identify greater opportunities for savings in both money and time; and we do it all without increasing your staffing.
- 🌐 Let us take on your transportation headaches, while you focus on what you do best; producing and selling quality products!

HERE'S WHAT WE CAN DO FOR YOU

- Manage both domestic and international shipping
- Access a broad range of transportation services
- Document and simplify the logistics process for sites
- Oversee customs and compliance regulations
- Provide technology and business intelligence support
- Identify potential savings opportunities
- Implement cost savings projects
- Liaise between allocated carriers and shipping sites
- Resolve disputes raised by sites or carriers
- Audit freight invoices to ensure accurate billing
- Facilitate idea generation with our clients' logistics team
- Test pilot special projects to determine effectiveness
- Anything else needed to add value to the partnership

WE PROVIDE WORLD-CLASS TECHNOLOGY

END TO END SUPPLY CHAIN VISIBILITY

Logistics Plus® offers a full suite of user-friendly BI tools that are reflective of specific customer requirements.

Our custom **analytic solutions** cater to the exact specifications and requirements of our clients rather than having a standard “out of the box” solution.

By using **predictive analytics**, we help businesses budget and plan by utilizing existing data to forecast and anticipate future events.

Our **custom reporting** abilities begin with raw data and end with digestible, useful information to help our clients to find savings opportunities.

CONTROL TOWER CAPABILITIES

CAPTURING DATA POINTS ACROSS THE GLOBE

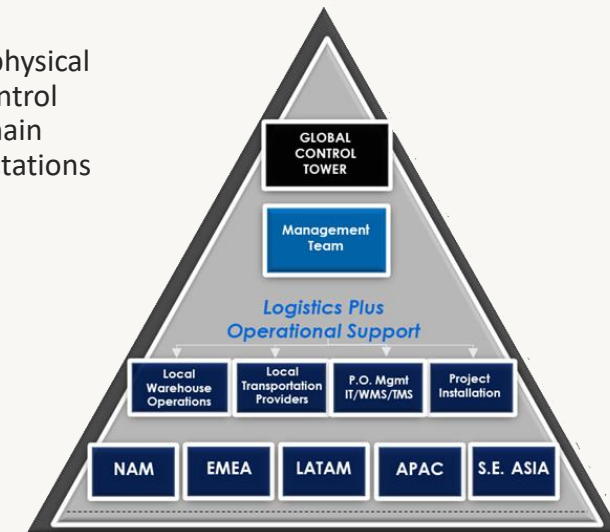

By tracking milestones and the progress of each shipment, we are able to identify specific pain points in a supply chain.

Logistics Plus captures data points regarding the physical movement of shipments across the globe. Our control tower capabilities find the root cause of supply chain disruptions so our clients can readjust their expectations or change their processes in a specific country.

By offering the flexibility of tracking one unique shipment, or analyzing multiple shipments on an aggregate level, our control tower capabilities allow our customers to gain a better perspective on all shipment activities.
