- Develop accurate data by utilizing compliance assistance for your imports
- Access a full-service staff of licensed customs brokerage specialists
- Enhance global visibility with mylogisticsplus.net to know when your shipments clear customs
- Develop standard operating procedures and best business practices to help you mitigate regulation errors and manage risk
- Minimize costly delays with cargo examination coordination

High value, highly regulated

Delivering high value Data Center equipment to some of the most complex countries around the globe is not only highly regulated, but in most countries require extensive import permits. Logistics Plus have more that 25 years of 4 and 3PL logistics experience making us, your Idea global Data Center deployment partner.

Whether your global projects require deployment of fully populated racks or require onsite white glove build and configuration we offer a service that will suit your needs across all our global offices.

Our licensed consultants will remove the EOR and IOR complexities and work directly with manufacturers to ensure accurate product datasheets and certificates are obtained to ensure your projects are delivered on time.

Complete Logistics Management

IOR & EOR Services

Logistics Plus® offers importer of record (IOR) and exporter of record (EOR) services through our comprehensive logistics network.

Global Expertise, local knowledge

With Logistics Plus as your global import and export partner, you can easily manage all parts of your international supply chain. Whether you need air and ocean freight forwarding, customs brokerage, inland ground and rail distribution, project cargo, documentation, regulatory requirements and trade compliance – Logistics Plus has you covered.

As a full-service international **air freight** forwarder with over 50 offices worldwide, we have years of experience working with our airline partners to make sure you meet your air freight deadlines. Standard, charters, expedited, oversized or overweight, we know the ins and outs of booking freight on aircraft in the most affordable and efficient way. Choose the best air option for your freight from a variety of air transportation services and flights.

Importing and Exporting Can Be Complex

It goes without saying that there are many regulations around importing and exporting – complex regulations. We have the consultants who can help simplify the complexity of those regulations and provide procedures to keep your company in compliance. No matter the origin or destination of your goods, we help you gain the knowledge to perform the due diligence necessary to ensure your shipments meet international regulations. Easily define your needs, contain costs, and minimize your risk when you work with our experienced licensed customs brokers. Our customs specialists help you comply with existing government regulations and stay ahead of changing customs compliance laws to reduce your risk, eliminate errors, and lower your costs..

How Logistics Plus can help:

- Landed costing for your imports
- Access a staff of licensed customs brokerage specialists
- Develop standard operating procedures and best practices
- Minimize costly delays with cargo examination coordination
- Ensure your imports and exports meet legal requirements no matter where they are located

Full-Service Customs & Compliance Solutions
