### Our Solutions

- Transportation and Freight Management
- Freight Forwarding and General Logistics
- Warehousing, Fulfillment, and Installations
- 3.5PL, 4PL, Supply Chain and Technology Solutions

### Global. Integrated. Logistics.

Logistics Plus, Inc. (LP) is A 21st Century Logistics Company™ and a leading worldwide provider of transportation, warehousing, fulfillment, global logistics, business intelligence, technology, and supply chain solutions. LP was founded 25 years ago in Erie, PA, by local entrepreneur Jim Berlin. Today LP has annual global sales of over \$500M and more than 1,000 employees in 30+ countries worldwide. LP is consistently recognized as one of the fastest-growing privately-owned transportation and logistics companies, a top 3PL, a top freight brokerage and warehousing provider, a leading project cargo manager, and a great place to work. With our trademark Passion for Excellence™, our global employees put the ‘plus’ in **logistics** by doing the big things properly, plus the countless little things that ensure complete customer satisfaction and success.

### 3PL, 3.5PL, or 4PL Solutions

Logistics Plus offers a breadth of reliable and affordable services. Working as your 3PL, 3.5PL™, or 4PL partner, Logistics Plus is the solutions company known for saying YES to unique supply chain challenges by handling projects from start to finish and doing what other logistics companies cannot or will not do—and you won’t be waiting on us. We have lean operations that are agile and responsive to customers’

needs, yet we are large enough to have a network of resources that span the entire supply chain.

### A Global Network of Resources

The Logistics Plus® network includes offices or warehouses located in Erie, PA; Aurora, CO; Buffalo, NY; Charlotte, NC; Chicago, IL; Chino, CA; Cincinnati, OH; Cleveland, OH; Colton, CA; Dallas, TX; Dayton, NJ; Des Moines, IA; Fontana, CA; Haslet TX; Honolulu, HI; Houston, TX; Jamestown, NY; Laredo, TX; Lexington, NC; Los Angeles, CA; Meadville, PA; Miami, FL; New York, NY; Norfolk, VA; Olean, NY; Phoenix, AZ; Riverside, CA; San Francisco, CA; Tulsa, OK; Vancouver, WA; Australia; Belgium; Brazil; Canada; China; Colombia; Czech Republic; Egypt; France; Germany; India; Indonesia; Japan; Kazakhstan; Kenya; Libya; Malaysia; Mexico; Netherlands; Poland; Saudi Arabia; Singapore; South Africa; Taiwan; Thailand; Turkey; UAE; Uganda; Ukraine; and Vietnam; with additional agents around the world.

## Supply Chain Challenge? **SOLVED**

# Custom TMS and Freight Management Solution Provides Industrial Distributor with Full Supply Chain Visibility

The Logistics Plus® MyLogisticsPlus™ cloud-based portal is customized to provide a direct interface with the client's WMS for its parcel, freight, and international order and shipping processing. The Logistics Plus Freight audit and payment solution offers the client complete invoice visibility with business intelligence reporting.

### THE CHALLENGE

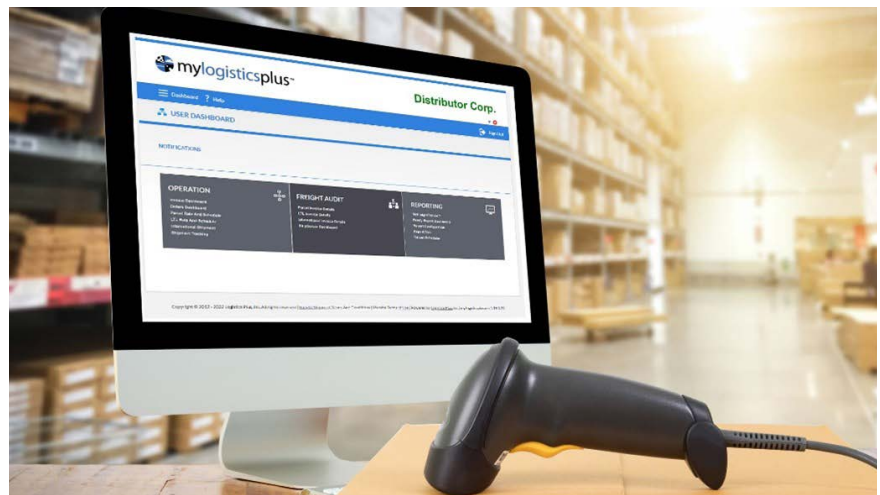

Logistics Plus (LP) is a leading worldwide provider of transportation, warehousing, fulfillment, global logistics, business intelligence, technology, and supply chain solutions. In early 2021, a global industrial distributor that serves leading manufacturers administered an RFP to find a third-party logistics (3PL) provider that could help it optimize outbound multi-modal shipping from its six warehouses, improve inbound vendor routing compliance, and provide a complete picture of its supply chain invoices to reduce costs.

### THE SOLUTION

After an extensive review process, the client selected Logistics Plus for its impressive, customizable technology capabilities, complete, multi-modal transportation management expertise, and overall cultural fit. The designated LP solutions team immediately began working with the client to understand its general needs through a series of meetings and site visits.

Working with the client's in-house development staff, the LP technology team developed and implemented a custom-built version of its cloud-based MyLogisticsPlus™ portal.

This custom TMS would allow the client's warehouse personnel to instantly scan and weigh both parcel and freight orders, select the optimal carriers based on cost or customer routing preference,

and print all related documentation.

LP's international team worked with the client to assign proper HTS codes for all its imported and exported goods and create more efficient international shipping standard operating procedures (SOPs). Additionally, LP created an operational routing center to help the client's vendors cost-effectively route shipments moving inbound to its facilities.

Lastly, LP implemented its FAS (freight audit solutions) process and technology to facilitate contract and rate management, file carrier disputes, and provide critical business intelligence across all modes of the client's entire supply chain.

### THE RESULTS

Now, with the ability to place greater focus on its core business, with less

diversion of resources on transportation and logistics, the client continues to enjoy record year-over-year sales and profitability results.

Using business intelligence derived from invoice aggregation through the freight audit and payment process, LP has also successfully renegotiated contracts with critical carriers to provide the client with more affordable shipping options for both parcel and LTL freight modes.
