

## Supply Chain Success Story!

# Delivering a 185-ton Transformer and Accessories From the Philippines to Shanghai

## THE STORY

When a multinational technology conglomerate struggled to move a 185-ton transformer and its accessories from the Philippines to Shanghai, they called Logistics Plus.

## THE HIGHLIGHTS

- The Logistics Plus (LP) Thailand, Philippines, and China offices collaborated to plan, execute, and deliver the transformer seamlessly.
- A representative from the LP Philippines flew to Manila to visit the client and examine the cargo to orchestrate a shipping plan.
- The transformer was loaded onto the vessel by a 450-ton floating crane.
- The vessel departed from the Philippines and arrived in Shanghai ahead of schedule and in perfect condition.
- Upon project completion, Logistics Plus Philippines was registered as the client's full-time approved logistics partner for future shipments.
