

FOR IMMEDIATE RELEASE

Logistics Plus is Named a 2025 Top 100 Logistics & Supply Chain Technology Provider

It's the third straight year that Logistics Plus has been named to the annual Inbound Logistics magazine list.

ERIE, PA (April 24, 2025) – Logistics Plus, Inc. (LP), a global leader in transportation, logistics, and unique supply chain solutions, is proud to announce that it has been named a **Top 100 Logistics & Supply Chain Technology Provider for 2025** by *Inbound Logistics* magazine. The list, curated annually by the editors of *Inbound Logistics*, recognizes 100 logistics companies whose solutions are central to solving transportation, logistics, and supply chain challenges and whose customer successes are well-documented.

"The editorial selection committee had their work cut out for them, especially with all the new entrants and solutions in the market, ultimately selecting only 100 technology solutions leaders from the 400+ candidates who submitted their credentials," said Felecia Stratton, Editor for *Inbound Logistics*. "Our Top 100 list provides crucial decision support for our audience, all the more important this year considering the need and the innovations coming online."

The Top 100 Logistics IT Providers list appears in all the April 2025 magazine editions and will be posted online and promoted across the various *Inbound Logistics* media platforms. View the list online at <https://www.inboundlogistics.com/articles/top-100-logistics-it-providers/> or read the April 2025 digital edition of *Inbound Logistics* at <https://www.inboundlogistics.com/digital-editions/>.

A Logistics Plus TMS case study and advertisement are also showcased in the magazine.

Supply Chain Challenge? **SOLVED**

Custom TMS and Freight Management Solution Provides Industrial Distributor with Full Supply Chain Visibility

The Logistics Plus® MyLogisticsPlus™ cloud-based portal is customized to provide a direct interface with the client's WMS for its parcel, freight, and international order and shipping processing. The Logistics Plus freight audit and payment solution offers the client complete invoice visibility with business intelligence reporting.

THE CHALLENGE
Logistics Plus (LP) is a leading worldwide provider of transportation, warehousing, fulfillment, global logistics, business intelligence, technology, and supply chain solutions. A global industrial distributor that serves leading manufacturers administered an RFP to find a third-party logistics (3PL) provider that could help it optimize confound multi-modal shipping from its six warehouses, improve inbound vendor routing compliance, and provide a complete picture of its supply chain invoices to reduce costs.

THE SOLUTION
After an extensive review process, the client selected Logistics Plus for its impressive, customizable technology capabilities, complete, multi-modal transportation management expertise, and overall cultural fit. The designated LP solutions team immediately began working with the client to understand its general needs through a series of meetings and site visits.
Working with the client's in-house development staff, the LP technology team developed and implemented a custom-built version of its cloud-based MyLogisticsPlus™ portal.
This custom TMS would allow the client's warehouse personnel to instantly scan and weigh both parcel and freight orders, select the optimal carriers based on cost or customer routing preference, and print all related documentation.

LP's international team worked with the client to assign proper HTS codes for all its imported and exported goods and create more efficient international shipping standard operating procedures (SOPs). Additionally, LP created an operational routing center to help the client's workers cost-effectively route shipments moving inbound to its facilities.
Lastly, LP implemented its FAS (freight audit solutions) process and technology to facilitate contact and rate management, file carrier disputes, and provide critical business intelligence across all modes of the client's entire supply chain.

and logistics, the client continues to enjoy record year-over-year sales and profitability results.
Using business intelligence derived from invoice aggregation through the freight audit and payment process, LP has also successfully renegotiated contracts with critical carriers to provide the client with more affordable shipping options for both parcel and LTL freight modes.

THE RESULTS
Now, with the ability to place greater focus on its core business, with less diversion of resources on transportation
