

Supply Chain Success Story!

A "Breeze" of a Path to an Air-Tight Freight Management Solution

THE STORY

When North America's top manufacturer of air curtains needed to clean up and modernize its supply chain processes, it turned to Logistics Plus for support. With strong collaboration between both teams, the result was a breeze. Logistics Plus implemented a fully customized transportation management solution—tight as an air seal—and delivered global visibility, accurate invoicing, and flexible contract management for the client's expanding international and domestic operations.

THE HIGHLIGHTS

- **Customized TMS Solution:** Logistics Plus implemented its eShipPlus™ TMS with features tailored to the client's specific transportation needs, ensuring a clean and efficient flow of order and shipment data.
- **Hybrid Contract Strategy:** A smart mix of client-direct carrier contracts and LP-brokered options provided the flexibility to optimize costs and service levels across modes.
- **Freight Audit & Payment Services:** The LP team introduced a comprehensive audit and payment process that reduced invoice errors, enhanced accuracy, and provided greater spend transparency for parcel and freight shipments.
- **Global Supply Chain Support:** As the client expanded its international footprint, Logistics Plus provided global logistics expertise to support air, ocean, and cross-border shipments – including temporary warehousing.
- **Seamless Collaboration:** Through proactive communication, operational alignment, and shared goals, the partnership between the client and LP set the foundation for ongoing supply chain success.

Creative Solutions for Unique Challenges.
