

Supply Chain Success Story!

A Clean Start for a Leading Cleaning Equipment Manufacturer

THE STORY

When a leading commercial, industrial, and consumer cleaning equipment manufacturer recognized the need for a “spring cleaning” of its logistics operations, it turned to Logistics Plus to scrub inefficiencies from its global supply chain. Faced with fragmented decision-making and limited visibility, the company needed a partner that could polish its transportation processes and help it shine.

THE HIGHLIGHTS

- **Dedicated TMS Implementation:** Logistics Plus deployed a customized MyLogisticsPlus™ transportation management system (TMS) tailored to the client’s diverse and complex shipping needs.
- **Global Control Tower:** A centralized logistics control tower was established to oversee and coordinate all freight activities, eliminating siloed decision-making and streamlining operations.
- **Freight Audit & Payment Process:** LP implemented a robust freight audit and payment solution, ensuring invoices were accurate, compliant, and processed on time—leading to significant cost reductions.
- **Supply Chain Visibility:** The customized TMS provided real-time visibility into shipments, allowing the client to track performance and respond proactively to potential disruptions.
- **Cost Savings & Efficiency:** With cleaner data and clearer insight, the client improved efficiency, gained control over logistics spend, and optimized overall transportation performance.

Creative Solutions for Unique Challenges.
