

U.S. & MEXICO CROSS-BORDER⁺ SOUTHBOUND PROCESS

END-TO-END SOUTHBOUND PROCESS

Manage shipment setup, mode selection, customs clearance, importer of record in Mexico, and in-bond documentation as needed.

Upon arrival at the U.S. port or origin, send pre-alert documents to Logistics Plus or the client's designated customs broker.

Upon arrival at the designated facility, the shipment is off-loaded, staged for inspection, and processed through U.S. export and Mexico import customs clearance.

Logistics Plus manages cross-border drayage (green/red light), coordinates transport with a Mexican carrier, ensures shipment visibility, seamless delivery, & secures delivery.

SOUTHBOUND SHIPMENT SUPPORT

Logistics Plus ensures smooth U.S. – Mexico transitions with expert guidance, **real-time visibility**, and proven experience—making us the **trusted choice** for reliable cross-border logistics.

LOGISTICS PLUS HANDLES THE HEADACHES

- ✓ Shipment quotes & setup by mode
- ✓ Customs documentation
- ✓ Importer of record setup (if needed)
- ✓ Inbond documentation (if applicable)

Additional optional **insurance coverage available** in the U.S. and Mexico—contact Logistics Plus for details.

SHIPMENT FLOW OVERVIEW

Pre-alert documents are sent after departure. Upon arrival, the shipment is processed and cleared for export/import, crosses the border to Mexico, and is delivered by a local carrier.
