People, Technology, Solutions. Delivered.

Logistics Plus, Inc. (LP) is a 21st Century Logistics Company™ and a global leader in transportation, freight forwarding, warehousing, fulfillment, technology, and unique supply-chain solutions. For 30 years, LP has built its reputation on solving complex logistics challenges with creativity, speed, and precision.

Recognized as a Top 3PL, leading freight brokerage and warehousing operator, fast-growing private company, and Great Place to Work®, LP combines a people-first culture with advanced technology to provide agile, fully customized logistics solutions across industries, including retail, manufacturing, solar and energy, data centers, FF&E and hospitality, healthcare, and many others.

Built on Passion, Built for What's Next

"Logistics is in our DNA," says Jim Berlin, Founder & CEO. "From day one, our goal has been to put the 'plus' in logistics — saying yes to challenges others turn away from and always finding a better way to serve our customers."

That commitment has fueled continued investment in warehousing, fulfillment, and last-mile installation services. Today, LP operates nearly 12 million square feet of warehousing across North America, with additional facilities worldwide supporting omnichannel distribution and large-scale deployments.

Technology That Powers Solutions

LP develops and deploys proprietary TMS,

WMS, Business Intelligence platforms, and 4PL control-tower solutions that deliver full visibility, actionable analytics, and seamless integration across all transportation modes and supply-chain workflows — turning data into decisive outcomes for customers.

Global Reach With Local Expertise

With owned offices and trusted partners across North America, Europe, Asia-Pacific, the Middle East, and Africa, LP provides true global execution supported by local operational knowledge — enabling multinational freight movements, specialized projects, and time-critical supply chains worldwide.

Leading With Purpose

Beyond commercial logistics, LP continues to support humanitarian and rebuilding efforts around the world, including immense support for Ukraine. Through direct investment, operational deployments, and fundraising exceeding \$1 million, LP has helped maintain critical supply chains, aiding economic stability and reconstruction.

"We believe leadership means action," adds Berlin. "Sometimes you have to be willing to be the 'tip of the shovel.'"

You can find all of LP's global locations at logisticsplus.com/directory.
