

CYBER SCHOOLS & EDUCATION SOLUTIONS

LOGISTICS PLUS® PROVIDES CUSTOMIZED AND DEDICATED LOGISTICS SOLUTIONS FOR THE CYBER SCHOOL AND EDUCATION INDUSTRY.

LOGISTICS SOLUTIONS FOR THE EDUCATION INDUSTRY

Logistics Plus provides end-to-end supply chain solutions for the cyber school and education industry. Using our global network of offices, hubs, and warehouses, our dedicated team of specialists brings customized solutions for all your logistics needs. The cyber school industry is rapidly growing. Logistics Plus ensures that you can keep up with the demand.

Our experienced and dedicated logistics team can manage your supply chain, allowing you to focus on your organization and respond quickly to changing conditions. We handle the logistics from start to finish - and everything in between. **Logistics Plus has fulfilled over 100,000 kits to cyber schools across the country, with a total value of \$10 million.** We manage over 2,000 SKUs, kitted into 250 unique kits, including STEM, Music, Culinary, Art, Cosmetology, Literature, Summer Backpacks, Hydroponics, Career-Specific, Computer Science, and more.

SERVICES OFFERED:

- End-to-end supply chain solutions, including procurement and delivery
- Warehousing with grade and course-specific kitting
- Assembly and delivery of kits directly to students and teachers (custom inserts, visual aids, marketing materials, etc.)
- Upfront demand and supply planning to avoid delays in delivery
- Standard warehousing options
- Inventory management
- Business intelligence reporting and dashboards

CYBER SCHOOLS & EDUCATION SOLUTIONS

PLANNING

- Logistics Plus collaborates with the school to develop demand forecasts, sourcing strategies, and budget plans
- Timelines, key milestones, and program requirements are aligned to ensure a smooth rollout

PROCUREMENT

- Items are sourced and purchased by Logistics Plus from approved vendors with full pricing transparency
- Supplier coordination and quality standards are managed to ensure consistency and reliability

WAREHOUSING & KITTING

- Inventory is received and managed within our WMS, providing complete visibility, reporting, and dashboard insights
- Kits are assembled in batches according to the defined Bill of Materials
- Custom-branded packaging, inserts, and marketing materials create a seamless and engaging student unboxing experience

FULFILLMENT

- Initial kits are shipped ahead of the school year to ensure timely delivery
- Rolling enrollments and replacement needs are supported year-round with dedicated, full-time service
- Kits and Bill of Materials can be adjusted with complete flexibility up until the point of shipment
